Tri-City Medical Center is First Hospital in California Licensed for Laser and Aesthetics

Oceanside – The new Tri-City Medical Center Laser and Aesthetic Center in Carlsbad just passed a rigorous California Department of Public Health survey making it the very first hospital state-certified for laser and aesthetics.

The two-hour inspection left the survey team 'very impressed,' said Tracy Younger, Director of Outpatient Ambulatory Care at Tri-City Medical Center. "The lead inspector told me she was amazed at how many uses, both cosmetic and medical, there are for our particular laser. With this state license, the public can come to us with the highest degree of confidence." Younger said.

The Laser and Aesthetic Center is in the new medical office building next to Tri-City Wellness Center in Carlsbad. Treatments and procedures offered include; Botox, Juvederm, Restylane, Radiesse, Sculptra, laser hair removal, skin resurfacing, skin tightening, IPL/Photo facial, and laser treatments for rosacea, vascular spots and pigmented spots.

The Tri-City Medical Center Laser and Aesthetic Center, 6260 El Camino Real, Carlsbad, CA 92009 is open Monday – Friday, 8:00 a.m. – 5:00 p.m. For more information or to schedule a procedure call: 760-476-2929 or FAX: 760-476-2962
